(72) Inventor: FARFOR, James, Douglas [AU/AU]; 46 Kooyong Road, Armadale, Victoria 3143 (AU).

(74) Agent: FREEHILLS CARTER SMITH BEADLE, 101 Collins Street, Melbourne, Victoria 3000 (AU).

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(54) Title: CUTTING AND FOLDING MACHINE

WO 03/062110 A1

(57) Abstract: A machine (20) for cutting and edge folding foils (32) includes a cutting/folding station. At the cutting/folding station is a folding form (3a) about which the foils may be folded. A feeding means (2, 2a) feeds a length of foil to the cutting and folding station. At the folding station a cutting means (4) adjacent to the folding form (3a) creates a cut edge in the foil. The path of the cutting means (4) is such as to fold the cut edge of the foil around the folding form (3a).
